A decorative graphic on the left side of the slide consisting of two overlapping parallelograms. The front one is blue and the back one is a light green color. They are positioned diagonally, with the blue one partially covering the green one.

Group 12 Buildout Project

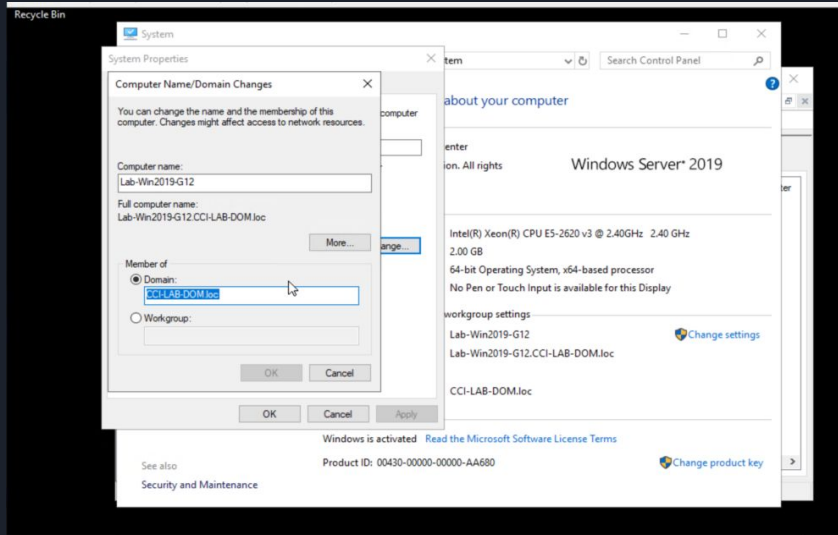

Alexander Blanchette, Jamel Douglas, Andrew
Vargas, Matthew Lewis, Maurice Channelle

What we set out to do

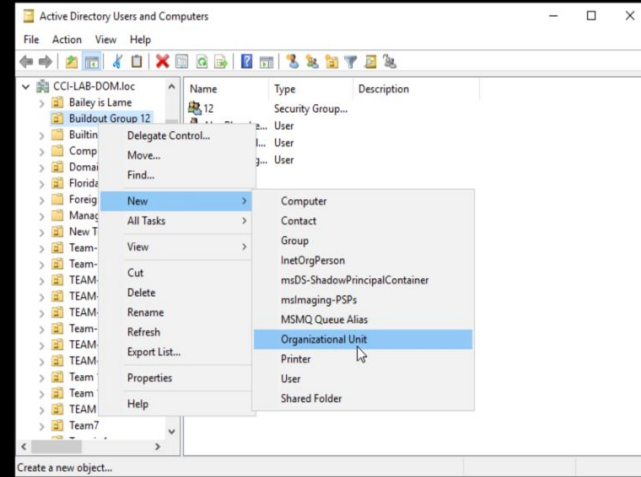

- Install system wide Virus/Malware protection and PC maintenance programs.
- Why?
 - More secure
 - Easy for users to install these programs only if they need it. (Malwarebytes is mandatory)
 - Access to HWINFO is useful for troubleshooting VM's and other workstations.

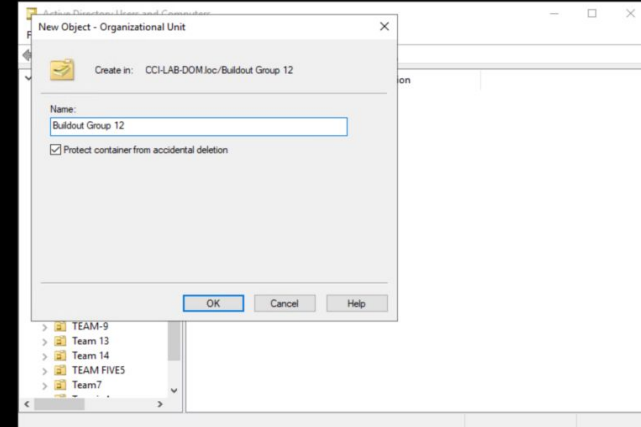

Set up an Organizational Unit

Recycle Bin

Recycle Bin

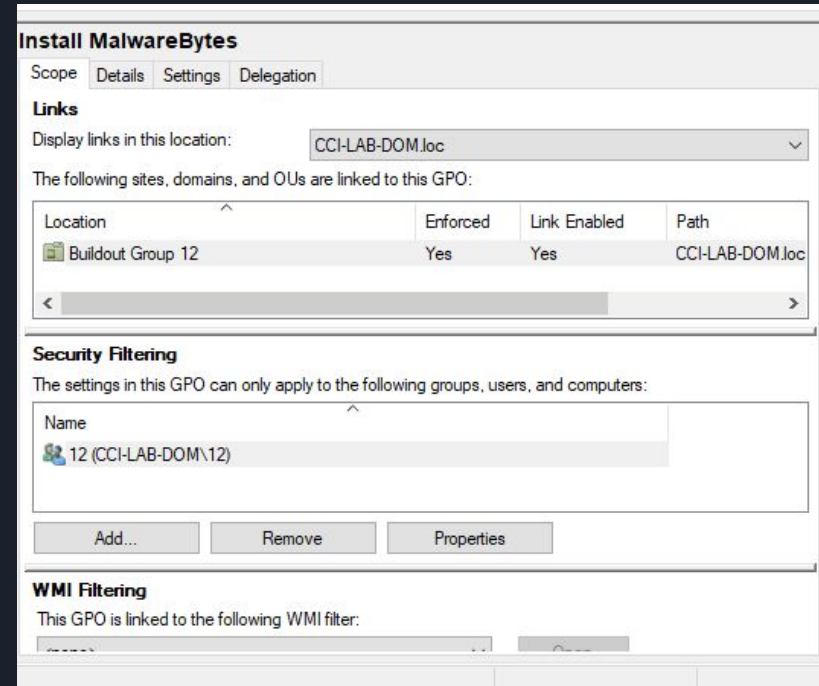

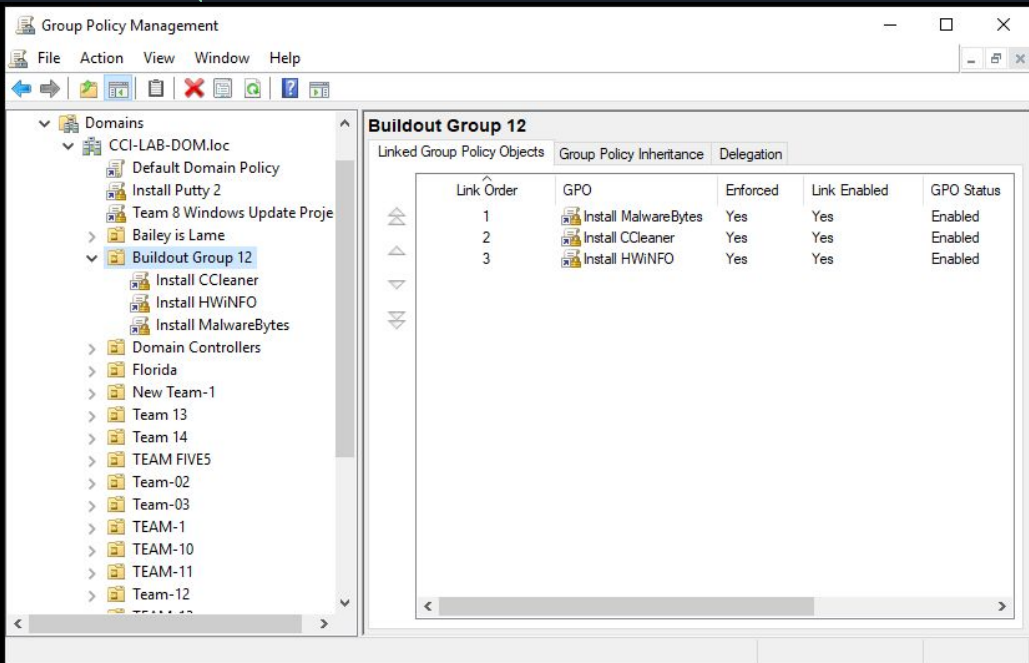

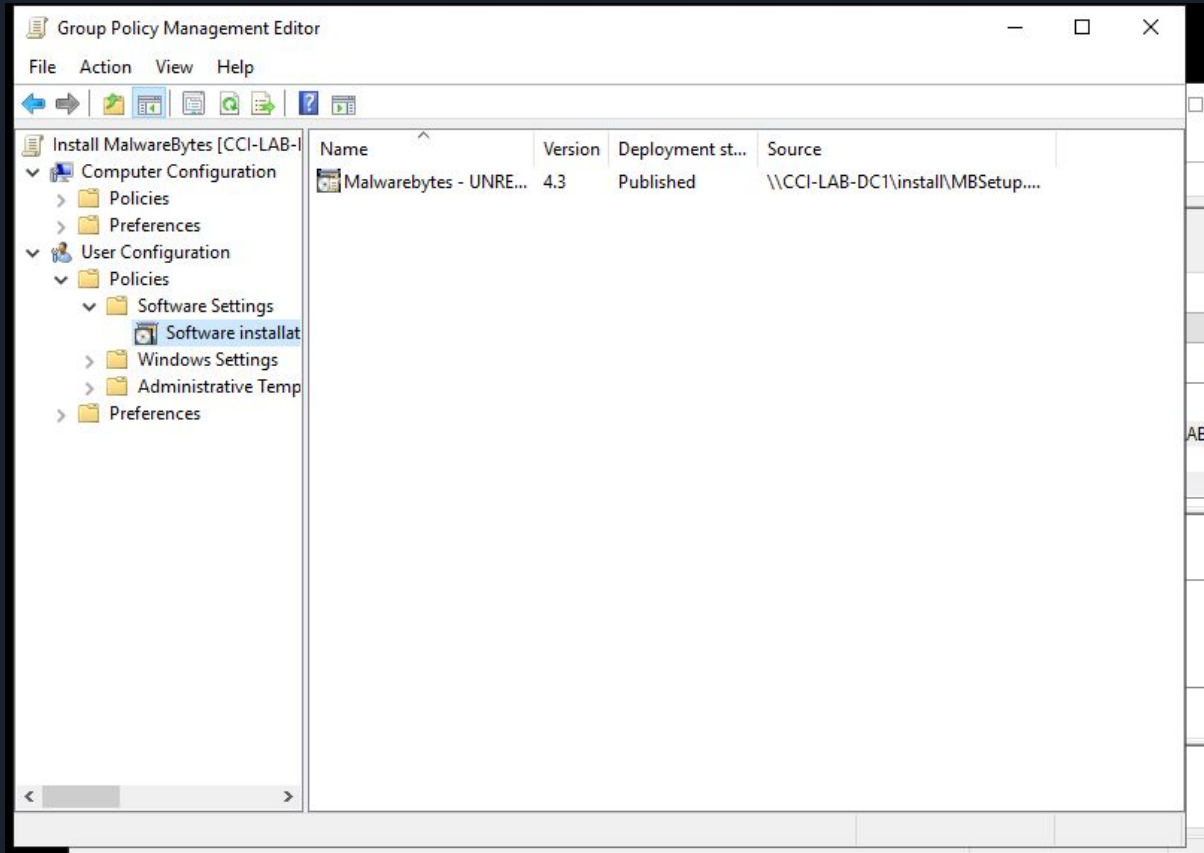

Network share

- A network share is needed for a couple of reasons:
 - Users need to access the data
 - IT personnel can ensure that all users install the same programs on the PC's

Set up Group Policy Object

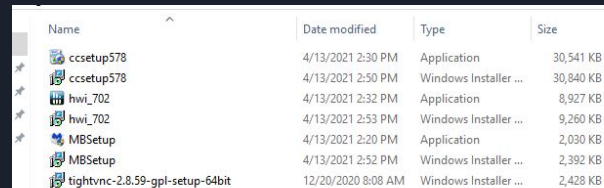

Set up GPO (Cont.)

Users of the group can now install the software.

- By using a network share users can easily access and install the programs needed without the need to access the web.

A screenshot of a Windows File Explorer window displaying a network share. The window shows a list of files and folders with columns for Name, Date modified, Type, and Size. The files listed are:

Name	Date modified	Type	Size
ccsetup578	4/13/2021 2:30 PM	Application	30,541 KB
ccsetup578	4/13/2021 2:50 PM	Windows Installer ...	30,840 KB
